When Shah Jahan fell ill in September 1657, a struggle for the throne started between his four sons - Dara Shikoh, Shah Shuja, Aurangzeb and Murad Baksh. Shuja immediately crowned himself the emperor and took imperial titles, November 1657. In his second attempt to win Delhi, the first being against his brother Dara Shikoh and later against Aurangzeb, Shuja marched again to the capital. A battle took place on 5th January 1659 at the Battle of Khajwa (Fatehpur district, Uttar Pradesh) where Shuja was defeated. After his defeat, Shuja retreated towards Bengal. He was pursued by the imperial army under Mir Jumla. Shuja put up a good fight against them. However, he was finally defeated in the last battle in April 1660. After each defeat he had to face desertions in his own army, but he did not lose heart. He, rather, re-organised the army with renewed vigor. But when he was going to be surrounded at Tandah, and when he found that reorganization of the army was no longer possible, he decided to leave Bengal for good and take shelter in Arakan. After an unhappy few years in Arakan, his last days were spent in Tripura and Manipur.

281 **Guinea Gold Coin Weighing Scale**, Brass, 43.14 g, 95x14x13 mm, the Weighing Scale is especially made for weighing the correct gold coins of Guineas (Sovereigns) and ½ Guineas (½ Sovereigns). The Scale has two slots, the inner one is for 1 Guinea coins, and the outer one for ½ Guinea coins. The first slot has the legend, SOVEREIGN / WARRANTED, and the second has SOVEREIGN / ½. The left-hand part has a Royal Crown at top and at the bottom is engraved, SOVEREIGN / WARRANTED with a crown in the centre.

To weigh the coins, one has to put the coin in one of the slots of either 1 or ½ Guinea. If the scale balances itself than the coin is of correct weight, else it will either not move down or will touch the ground if the coin is heavier. This is an ingenious way to identify and weigh the gold coins at the speed of light. *Very Unusual and interesting item for the collectors of British India coins*.
